

## High-quality materials.

CLAAS ORIGINAL belts are manufactured from a combination of high-quality rubber materials, cords and fabrics, with the belt construction individually tailored to the respective CLAAS drive unit.

### Your benefits:

- High temperature resistance, thanks to modern material compositions (EPDM: synthetic rubber type)
- Long service life, thanks to wear-resistant materials

## Textile material protects the rear and base of the belt.

The special material construction affords the belts optimal protection from external influences, while also preventing belt slippage.

### Your benefits:

- Highly resistant to environmental influences (dust)
- Outstanding power transmission
- Extremely flexible and tear-resistant

## Optimal positioning of cords.

In ORIGINAL belts, the positioning of cords has been optimised through specially developed manufacturing methods.

### Your benefits:

- Maximum machine output through optimal power transmission
- Long service life, thanks to high tear strength
- Reduced vibration characteristics, thanks to exceptionally smooth belt running
- High power transmission in limited installation space

## Precision-manufactured belt profile.

Our special manufacturing methods ensure the belt cross-section remains identical over the full length of the belt.

### Your benefits:

- Extremely smooth running, prevention of vibrations
- Smooth power transmission

## Customized.

CLAAS ORIGINAL parts are precision-manufactured, high-quality series components for CLAAS machines.

## Reliable.

CLAAS ORIGINAL parts have a longer life cycle and protect the machine from mechanical failure.

## Efficient.

CLAAS ORIGINAL parts are renowned for their high cost-effectiveness, and quality that pays off.

## Why CLAAS ORIGINAL belts?

ORIGINAL belts offer the perfect connection piece for your CLAAS machines. Our expertise in selecting the perfect combination of materials is key. The special features of ORIGINAL belts:

- Optimal positioning of cords
- Precision belt cross-section
- High-quality rubber materials, cords and fabric
- Developed and manufactured in Europe

ORIGINAL parts offer you more than just the right dimensions. The materials and manufacturing methods we use are fundamental to the reliability and long service life of our machines.

Our ORIGINAL parts are manufactured from materials of an exceptionally high quality and to precise CLAAS specifications on the basis of proven CLAAS expert knowledge. Each and every part is tailored to the machine as a whole.
